DETAILED ACTION

Allowable Subject Matter

Claims 1-11, 16-18, and 20-30 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 11, 16, 17, and 20, as currently amended, each require generating an encoder approximation of the transient audio signal based on the spline approximation. As indicated in the previous Office Action, Purnhagen et al. generate a linear approximation of an envelope at the encoder side. While Wang discloses reconstructing an envelope based on a spline interpolation, there is no reasonable suggestion of performing a spline interpolation during encoding. Thus absent any teaching or suggestion in the prior art of record of generating an encoder approximation based on a spline approximation, claims 1-11, 16-18, and 20-30 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
